NEW YORK, Dec. 14.-The great steel

New Yorks, Dec. 14.—The great steel gas tank of the Consolidated Gas Co. at Avenue A and Twentieth street, the largest of its kind in the worlt, echlapsed at 5:30 o'clock Tuesday afternoon. It went down with a crash and rour like a great explosion.

Masonry of grante hiocks and bricks to the height of 50 feet fell like a child's toy house of blocks, and loosened from bondage 8:000,000 gailons of water, deluged the streets and in a ten-foot tidal wave carried death and destruction through the surfbunding neighborhood. It is not known how many with the street of the surfbunding neighborhood. It is not known how many the surfbunding neighborhood. It is not known how many the surfbunding neighborhood. It is not known how many the surfbunding neighborhood. It is not known how many the surfbunding neighborhood of the surfbunding neighborhood. It is not known how many the surfbunding to the surfbunding to the first many feet in this part of the surfbunding the pit to make the first "water test." The great tank seemed to withstand the test well. The laborers were even beginning to gather up their tools to knock off. Thera were many people on the streets and crowdad at rost cars coming and going.

Suddenly seme an awful crash. The men below had searcely time to fly from beneath the falling walls ere they were picked up by the mass of rolling water and hu led hundreds of feet way. Into the basement, the first and second floors of factories and command a block or more as if mere straws. Women were, wasshed out of the flats from the first floors and almost drowned.
